PREFACE

This book lists pay rates in effect as of July 1, 2014. There are no general wage increases reflected in this book for fiscal year 2014-2015.

The single capital letter listed under the column entitled "CODE", identifies the rule to be used for progressing from the minimum to the maximum salary rate. The progression rules are explained in the Salary Step Increment Schedule. The parenthetical line below the classification indicates the classification's bargaining unit affiliation.

Effective May 1, 1997, appointees are covered by the Executive Pay Plan. Appointees are not eligible for general wage increases. Instead, pay levels in appointive classifications are set by the appointing authority solely on the basis of merit and consideration of market competition studies provided by the Human Resources Department.

**ADMINISTRATION OF SALARY AND PREVAILING RATES
(COMMON COUNCIL RESOLUTION JULY 13, 1954) AS AMENDED**

RESOLVED, (1) That it shall be the duty of the department head on July 1 of every year and each annual quarterly period thereafter, to furnish the Finance Director with a list of employees eligible for step increments, and he shall indicate thereon the names of the individuals recommended and those not recommended together with reasons for each denial. The Finance Director may then honor payment of the recommended increases provided they are in accordance with the appropriations approved by the Common Council in the annual budget.

(2) In determining the eligibility for step increments based on one year of service, the department head shall require at least 216 days of payroll time in one grade of the same classification or in equivalent grades of similar classifications. Such time shall be exclusive of all overtime including sixth and seventh days, and it must be credited over a period of at least 12 calendar months. For step increments based on a six-month period, the department head shall require at least 108 days of service over a period of at least six calendar months.

(3) When employees are engaged for portions of days or weeks on a continuing basis, they may be granted a step on their full rate for the title, provided they have served 80 percent of their regular yearly schedule of work over a period of at least 12 calendar months.

(4) When an employee experiences a change in title within a series or between similar series with duties and responsibilities that may be quite readily compared, his rate shall be set at a level above the minimum consistent with the amount of payroll time spent in similar grades or higher grades within the same or similar series according to his past record regardless of date of continuity. (Note: On demotions, generally apply Rule #5)

(5) When an employee experiences a change in title from one series to another in the classification plan and it is difficult to recognize any similarities between grades and classes or when the observance of other rules would cause a grave injustice in the opinion of the department head and the Labor Relations Director, a rate may be set within the official range with the concurrence of both of these officials and such rate shall become the employee's official rate.

(6) For the purpose of administering scheduled increases, the year shall be divided into quarters beginning with the months of January, April, July and October. The increments shall be due at the beginning of the first quarter following the employee's anniversary date of employment. After July 1, 1947, they shall-furthermore be effective on the first day of the payroll period in

which the quarter begins. In no case shall an employee be deprived of credit for the first quarter of his anniversary by virtue of the first three days occurring on Sunday, holidays or non-scheduled work days (J.C.C. July 10, 1945). When special adjustments are made between quarters they shall take effect at the time of adjustment, unless otherwise provided as in paragraph (5).

(7) The term "Service" as used in several resolutions governing the administration of salary increases shall be construed to mean payroll time exclusive of overtime or premium time.

(8) When employees, according to the resolution of June 5, 1945 (J.C.C., p. 1173) are working in multiple title capacities, scheduled increases may be granted in all the titles held by the employee for the required length of time provided he shall have had the required amount of service, which service may have been under any of the titles.

(9) According to the resolution of October 1, 1941 (J.C.C., p. 2963) and as herein further provided, employees receiving promotions may, at the discretion of the department head and with the approval of the Labor Relations Director, be granted an increase equal to a full annual step or two six-month steps for salary classifications, or a six-month step of 10 cents for hourly rate classifications over and above their rate before promotion, providing the minimum of the new classification is not already a step in excess of their former rate. Promotions within the meaning of this paragraph are confined to those situations in which the maximum of the new title is at least a half step above the maximum of the old title. When an employee is promoted as above, his anniversary shall change accordingly, but when a change in title cannot be termed as a promotion for reasons above stated, the anniversary shall not change and the employee may at the discretion of the department head be granted an increase in pay equal to the difference between the maximum rates of the titles concerned. When multiple titles are involved such increase if granted on the non-promotional basis shall be equal to the difference between the maximum of the highest title prior to the change of status and the highest after the change.

(10) As provided in the resolution of May 18, 1948, (J.C.C., p. 1358), employees who are reinstated to their former class and grade according to Title IV, Chapter II, Section 14 of the City Charter, shall be compensated at a rate of pay, within the same classification, at a level of pay decreased for each full year of absence by an amount equivalent to the normal step increments received by the class for a year. Where they have been reinstated to a different grade and classification or under circumstances other than those provided in the above Charter provision, the rate shall be set concurrently by the Labor Relations Director and the department head according to the provisions of paragraph (5) above. A full year of service shall be construed to consist of a period of at least 12 calendar months, and no credit shall be granted for portions of years served prior to resignation.

(11) Employees in the apprenticeship programs according to the Official Compensation Schedule may be paid at their regular straight time rate for four hours per week or equivalent for required attendance at school classes (J.C.C., March 12, 1946, p. 542).

(12) When converting hourly rates to salary or vice versa, in the application of the above rules or under any other circumstances, the conversion shall be computed on a 2080 hour annual basis with hourly rates rounded up to the next highest $\frac{1}{2}$ cent and salary rates to the next highest dollar.

(13) In spite of any of the above provisions, no employee shall be paid above the maximum of the range for his title.

(14) Salary positions in classes listed on an annual rate basis in the compensation schedule shall receive annual scheduled increments according to rules prevailing and in the amounts and manner specified in the official schedule herein printed. Prevailing rate positions in classes listed on an hourly basis in the compensation schedule shall receive 10 cents per hour increase semi-annually and effective on quarterly intervals according to Rule 6 above. Apprentice classes in the Apprentice Step Increment Schedule shall be granted increments according to such schedule, effective the first payroll period after completion of the necessary requirements and otherwise under rules prevailing in this official schedule (J.C.C. July 3, 1951 and October 22, 1968).

(15) When upon application of the final step increment or an increase upon promotion according to Rule 9, the employee's rate is still within 1 cent per hour or \$21.00 per annum of his maximum rate, the department may include that remainder with the amount of the employee's last increment to provide him with his maximum rate.

- (16) a. Finish Painter - Building Spray rate will be paid to all Finish Painters who are doing sprayman work.
- b. Finish Painter - Swing Stage rate will be paid to all Finish Painters while doing swing stage work (window jack and window belts both exterior and interior).

(17) When an employee is entitled to a step increment based on age or scholastic qualifications, the increment will be granted on the first pay period following the attainment of the necessary qualifications.

- (18) a. Effective October 1, 1980, step increments for hourly rated employees shall be increased from 5 cents per hour to 10 cents per hour.
- b. Effective October 1, 1980, the basic step increment schedule for salary classifications shall be changed so that

the annual increments will be five percent (5%) of the employee's salary as of the date the increment is normally paid, not to exceed the maximum rate for the classification.

Half steps shall be two and one-half percent (2-1/2%).

- c. Effective January 1, 1981, the step increments for salaried classes shall be paid over a period not to exceed six (6) years. The rate range between minimum and maximum shall be maintained for those classes which currently exceed six (6) years. The City will readjust step increments so that there will be six (6) equal steps in the range. Employees between steps in the range after the implementation of the six year step schedule on January 1, 1981 shall receive their normal 5% step increment, if normally due and then shall be placed at the next highest increment level.
- d. Effective October 1, 1980, employees promoted from classes where the maximum of the old class is greater than the minimum of the new class, shall be entitled to a pay increase of two annual steps not to exceed the maximum of the new class. For promotion from entry level professional classes to junior professional classes this rule shall not apply and the prior practice shall be maintained.

Bargaining unit employees, upon ratification of their 2008-2012 labor agreement, also began to observe the Budget Required Furlough days.
- May 1, 2010 Under the terms of an Act 312 arbitration award, employees in the Detroit Police Command Officers Association and Detroit Fire Fighters Association Equivalent received the City's health care plan design changes.
- July 1, 2011 Effective July 1, 2011, all car stipend payments are eliminated.
- January 2012 Effective Tuesday, January 17, 2012 (the last BRF day for non-union employees) BRF days for non-union employees were eliminated. Effective Monday, January 23, 2012, non-union employees incurred a ten percent (10%) reduction in wages.
- March 3, 2012 As a result of the City's fiscal crisis, the Administration suspended merit and step increases effective immediately. In order to comply with Judge Sean Cox's court ruling of November 4, 2011, the suspension of merit and step increases does not apply to DWSD.
- August 17, 2012 Under the terms of the City Employment Terms (CET) Budget Required Furlough (BRF) days for

unionized employees were eliminated and replaced with a 10% wage reduction; with the exception of some DWSD unions, unions with a current contract and Section (13) (C) unions working at DDOT. In addition, merit and step increases were eliminated for these same unions.

Feb. 11, 2013 Budget Required Furlough (BRF) days were re-instituted for Non-Union Executive and Legislative Branch employees.

March 11, 2013 Budget Required Furlough (BRF) days were re-instituted for certain unionized employees.

Nov. 13, 2013 Effective November 13, 2013, Budget Required Furlough (BRF) days were eliminated for non-union and union represented employees by order of the Emergency Manager.
